

# Dr. Boggle and R blogged

By Agrippa

Grid setup: This is a normal grid. If you stare at the grid, you will see some patterns. Maybe a few characters here and there. I saw them. I saw the first two letters of the theme word. But note that the grid was not made with an intent to secretly have these characters. So, don't go staring at the grid. Fair warning: If you stare too long at the grid, you might end up with a headache.

## Post solve instructions:

The puzzle has three famous works of 15A. Two of the works are clued in the grid and the third one is depicted by the title. Identify these and answer the questions below. The puzzle also has six words that homophonically represent seven music syllables. Identify them.

---

**Across**

- 1 Be furious - rible for old fruit (5)
- 4, An oratorio lacking alto, primarily composed with sa-pa-sa notes
